To Whom It May Concern,

I highly recommend Tom Muzila and his company THREAT PROTECTION GROUP LLC., for all security needs. He has been a martial artist for over 35 years. His Green Beret training and special force security experience makes him unique. Both he and his associate Kent Moyer through THREAT PROTECTION GROUP LLC teach martial arts, self-defense and personal protection on a one to one basis or groups at ISI. They have successfully covered and supervised all events, benefits, and banquets hosted by ISI. Tom Muzila and his company supervised the security of the Grand Opening for the International Sportsmedicine Institute, of which over nine hundred people attended. Included were numerous celebrities such as; Sharon Stone, Warren Beatty, Annette Benning, Raquel Welch, Shirley Maclain, Joe and Betty Weider and many others. He also directed the security coverage for Wilt Chamberlain's memorial, which was also held at ISI. I recommend them with the highest esteem for their professionalism, ethics, effectiveness and business integrity.

I believe THREAT PROTECTION GROUP LLC's management, philosophy and technical experience to be the finest anywhere. I highly recommend Tom Muzila and his company to any corporation, company, business, team, group, or celebrity, who needs security protection.

Please feel free to call me for further information or reference at,
(310) 559-6900

Sincerely

Dr. LeRoy R. Perry
