RE: Tom Muzila

Dear Sirs,

I have known Tom Muzila and his family for more than ten years. Tom asked that I write a letter of recommendation on his behalf, it is without any reservation that I am able to do so. I can easily praise Tom's professional abilities and his personal integrity.

Over the last ten years I have utilized Tom's protection and threat management skills for various types of security. Muzila has worked for me on motion pictures security, personal celebrity protection and has provided event security for my company and numerous events involving celebrity and political figures.

Tom's skills and his resume are a source of personal pride and integrity for him. His knowledge and connections with law enforcement and military experience have assured that Tom only associates with very qualified and experienced personnel.

In conclusion, the best recommendation I can offer is that I would trust my own family with him in any situation. Please feel free to contact me directly for any information I can provide regarding Tom and or his services.

Sincerely,

Steven D. Reuther
